Thanks, Mike. Quick note on status of ACB work:

- Thuy's reviewing the final rinsate memo; I should get something from her this afternoon. We can walk Michal through it tomorrow during Ed's general, if he'd like (he mentioned that last week)
- Thuy is separating the product data from the rinsate data, since the product data still requires method validation. I have some target dates in the multi-page status paper; sending this around with the Tuesday afternoon PFAS invite.
- David French, one of our new guys, is summarizing what he sees in the non-CBI portion of the TSCA subpoena in layperson terms for us (internal); we'll be talking with OPPT on this, too. But it will be good to hear our lab's thoughts.

Agree next steps should involve OPPT/Tala. Will talk with Ed later today on it.

I think the focus for now should be on the Ex. 5 Deliberative Process (DP) - need OECA feedback.

One thing we will need to determine - if we were to Ex. 5 Deliberative Process (DP) }

Ex. 5 Deliberative Process (DP)

Here are a couple of options:

-
-
-

Ex. 5 Deliberative Process (DP)

Lab-wise, beyond additional containers and solvent testing, we Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

Anyway, my thoughts. Talk tomorrow!

Subject: PFAS data release: notes from Comm Weekly with Michal

Hi Ed and Kimberly - At our Comms Weekly today with Michal, we discussed the PFAS data release. Michal provided some of her thoughts and I wanted to share my notes in case you have additional insight from other discussions:

-
-
-
-

Ex. 5 Deliberative Process (DP)

It would be helpful to hear more about the plan moving forward and action steps so that we can message them in the comms. We can set up quick call if that sounds good to you.

Thank you,

Shamus Ozmen
